INSPECTION MANAGER

TRANSITION FROM MANUAL TO AUTOMATIC INSPECTION ROUTING SAVING TIME AND MAXIMIZING EFFICIENCIES FOR YOUR INSPECTORS.

FEATURES AND BENEFITS:

OPTIMIZE TRAVEL ROUTES - MINIMIZE TIME AND COST

Populates the sequence of inspections, as well as arrival/departure/travel/wait time for each inspector's route. Factors in real-time and historical traffic conditions (assuming a just-in-time optimization).

UTILIZES EXISTING CONFIGURATION

Respects configured calendars, inspection districts, and inspector disciplines. Assign default inspector location and start/end times, with ability to override on daily basis.

MAXIMIZE EFFICIENCY - REDUCE TRAVEL TIME

For areas with multiple inspectors, it can re-assign inspections within the group to reduce travel time.

MAKE CHANGES AS NEEDED - COST REDUCTION AND INCREASED ROI

Re-optimize multiple times per day to fill in for cancellations and automatically move periodic inspections in inspector's route into the daily calendar to fill schedule gaps.

ENHANCED AGENCY EXPERIENCE

Built in map to view inspections, districts, and assignments. Accesses optimization view to make requests, view results, and approval to commit. Easy to view Gantt chart to manage inspector's schedule.

IMPROVE CITIZEN SATISFACTION

Email and/or text notifications of expected arrival times and if expected time is changed throughout the day.

INSPECTION MANAGER SAVES TIME, REDUCES COST AND IMPROVES YOUR OVERALL EFFICIENCY OF YOUR OPERATION.
