ABOUT US

Optimal Blue is the leading provider of capital markets technology for the mortgage industry. As the only proven end-to-end platform that bridges the primary and secondary mortgage markets, we help lenders of all sizes operate more efficiently, manage risk more effectively, and maximize profitability for every loan transaction.

With over 20 years of experience and the largest market share in key capital markets segments, Optimal Blue is a trusted partner to lenders nationwide. Our platform powers over a third of mortgages priced and locked in the U.S. and supports nearly 40% of loans sold into the secondary market.

Our technology is built for scale and speed – cloud-native, API-first, and powered by automation, AI, and real-time data. We offer a fully integrated suite of solutions, including product, pricing, and eligibility, hedging and trading, compliance automation, MSR valuation, and data and analytics. With 70+ certified integration partners and a network that spans the mortgage ecosystem, we enable seamless connectivity and operational agility.

At Optimal Blue, we are committed to delivering measurable value. Our clients benefit from continuous innovation, no-cost enhancements, intuitive user experiences, and actionable insights that drive real ROI. Optimal Blue delivers the modern technology, expertise, and proven results that lenders need to navigate market volatility and scale for growth.

BOILERPLATE

The Optimal Blue boilerplate should be used where a concise, authoritative summary of the company is needed, including for press releases, media kits, and public-facing announcements. Always use the most current version and avoid modifying the language to maintain brand consistency.

OUR MISSION AND VALUES

WHY WE EXIST: OUR MISSION

Optimal Blue's mission is to help lenders maximize their profitability on every loan transaction so they can continue to help people achieve the dream of homeownership.

PRINCIPLES THAT GUIDE OUR BEHAVIOR: OUR VALUES

TAKE OWNERSHIP

We champion a culture of ownership, accountability, and empowerment so that everyone can take action when it is needed, no matter whose responsibility it should be. We don't sit back, but rather we are proactive and results-oriented, with an expectation of making and delivering on commitments. We don't work in silos. We don't point fingers. We just get stuff done.

INNOVATE WITH PURPOSE

We always move toward our mission. We come together to tackle challenges head on, encourage new ideas, and relentlessly take things over the finish line. We don't innovate because it's cool, but because we can solve specific problems or create specific opportunities for our clients. We lead the industry forward. We set the bar. We are the point of reference.

SERVE AUTHENTICALLY

Each individual's unique perspective is important. By listening, learning, and challenging each other, the best and right ideas win. We say what we mean, and we mean what we say. We don't surprise our customers or our teammates. We show up every day. We help one another succeed. We help our clients win.

ACT WITH URGENCY

Showing up in the smallest moments is how we make a big difference. We strive to make a mark in everything we do. We exceed expectations and deliver meaningful experiences and innovation for our clients – so they can do the same for their customers. We move quickly. We take action to deliver value. We work to build trust.

OUR TAGLINE

Modern. Proven.

Our tagline is a powerful expression that captures the promise we make to our clients and the values we stand for. To ensure a unified and consistent brand presence, when used, the tagline will be locked up with the logo in a set placement.

OPTIMALBLUE™
MODERN. PROVEN.

WHAT OUR TAGLINE MEANS

Modern.

Optimal Blue is built on a foundation of modern innovation that's designed to evolve. Our platform is API-first, cloud-native, and architected for scale, speed, and resilience. We leverage generative AI, machine learning, and real-time data syncing to deliver automation that adapts to market shifts and regulatory changes without disruption. Modern isn't just about sleek design – it's about infrastructure that empowers lenders to move faster, work smarter, and stay ahead.

Proven.

With decades of experience and the largest market share in key capital markets segments, Optimal Blue is the most trusted name in mortgage technology. Our deep expertise, honed over decades, powers the precision, compliance, and confidence our clients rely on every day. Our solutions are used to price-lock over a third of U.S. mortgages and support nearly 40% of loans hedged and sold into the secondary market. We've built a reputation on accuracy, reliability, and results. Our clients don't just trust our technology – they rely on it to drive performance every day.

BRAND DESIGN

MAIN LOGO

The Optimal Blue logo is a bold expression of who we are: modern, trusted, and performance driven. It combines a clean, contemporary wordmark with a dynamic icon that reflects our role as the engine behind lender profitability. Designed to be both tech-forward and timeless, the logo signals our commitment to innovation, precision, and connection across the capital markets ecosystem. The logo reinforces our position as the most trusted name in mortgage capital markets technology – delivering real ROI, every insight, every lock, every decision.

BRAND DESIGN

STACKED LOGO

The stacked version of the Optimal Blue logo is designed for flexibility and clarity in compact or square spaces. By vertically aligning the icon above the wordmark, this alternate layout ensures strong visual presence and legibility when horizontal space is limited – such as in social media profiles, app icons, or mobile-first environments. It maintains the integrity of our brand while adapting to modern digital formats, ensuring the logo remains bold, recognizable, and impactful at any size.

BRAND DESIGN

LOGO SIZING

Our logo has various sizing to accommodate most spatial needs. The minimum size of the logo icon should be BLANK pixels. When the need arises for smaller than this width, such as for swag items (pens as an example), it is recommended to just use the wordmark without the icon or our web site in the logo font.

BRAND DESIGN

LOGO ICON

A Symbol of Modern Innovation and Proven Performance

The Optimal Blue icon is more than a visual mark – it's a strategic expression of who we are and what we deliver.

The circular form represents unity, continuity, and the full lifecycle of the capital markets. Within it, the interconnected lines and nodes reflect the core of our platform: modern, API-first technology built for speed, scale, and seamless connectivity. It visually conveys our role as the central hub that connects lenders, investors, and partners across the mortgage ecosystem.

The dual-sided symmetry of the icon brings together two essential brand truths: we are both modern and proven. One side symbolizes innovation – cloud-native infrastructure, generative AI, and automation at scale. The other side reflects our legacy of trust – 20+ years of experience, market leadership, and unmatched pricing accuracy. Together, they form a balanced, forward-looking identity that's grounded in results.

This icon also reinforces our position as the engine that powers lender profitability from unrivaled pricing accuracy to advanced margin management. It's a visual shorthand for intelligence, precision, and performance that define our platform – and the value we deliver with every insight, every lock, every decision.

Whether used on its own or alongside our wordmark, the icon is a bold, tech-forward signal of our commitment to helping clients optimize their advantage in any market.

BRAND GRAPHICS

MAIN GRAPHIC

The Main Graphic is a signature visual element that creatively reinterprets the Optimal Blue logo into a dynamic, design-forward expression of our brand. It draws from the core shapes and energy of the logo to create a graphic that is both distinctive and visually engaging. This element should be used in direct connection with the logo – appearing alongside it in layouts where a unified brand impression is desired. Each version of the Main Graphic is available in two color treatments: a monochromatic style based on our primary color palette for a clean, cohesive look, and a more vibrant version that incorporates pops of color from our secondary palette to add energy and dimension.
